Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

The Applicant's representative requested the in-person interview to clarify issues presented in the response to the non-final office action. The Examiners agreed that the response filed on 6/8/06 overcomes the objects and rejections under 35 USC 101, 112, second paragraph.

The Applicant's representative discussed the difference between the instant application specifically the feature of "similarity vector between story pairs" and the prior art by pointing to the definition given in the specification paragraph 11. Also, the Applicant's representative pointed to the specification paragraphs 0086-0088 in explaining the novelty of claim 77 limitations "determining a verified first transformation...determining transformation error".

The Examiner will consider all arguments in addressing the applicant's response.
